"VICTORY PLANTS," the Prestige Strain of Michigan-grown Nursery Stock

CONFIDENCE.

A COMMON-SENSE CATALOGUE AND PRICE LIST.

VICTORY PLANTS.

We write to our nurserymen. We could write a fan, a large catalogue, and say a great deal about what our plants are, but we do not wish to put it in that way. We think we would all make a much better job of it if we just say what our stock is, and leave it at that.

The stock listed on the following pages will be grown by our firm. We do not expect to sell all of them, but we do expect to sell a fair percentage of them. We think we will be able to say that our stock is the best we have ever grown, and that it is the best we have ever offered for sale.

This is not to say that we are not making any mistakes. We are making mistakes, and we are hoping to learn from our mistakes. We are trying to improve our stock, and we are trying to improve our methods of growing and shipping. We are trying to do the best we can, and we are trying to do it in a way that is as economical as possible.

We are trying to give our customers what they want. We are trying to give them a good plant at a fair price. We are trying to give them a plant that is going to grow and do well for them. We are trying to give them a plant that is going to be as good as any other plant we can get.

We are trying to get the best results we can. We are trying to get the best results we can for the least amount of money. We are trying to get the best results we can for the least amount of trouble. We are trying to get the best results we can for the least amount of time.

We are trying to do the best we can, and we are trying to do it in a way that is as economical as possible. We are trying to do the best we can, and we are trying to do it in a way that is as economical as possible.

We are trying to do the best we can, and we are trying to do it in a way that is as economical as possible. We are trying to do the best we can, and we are trying to do it in a way that is as economical as possible.

We are trying to do the best we can, and we are trying to do it in a way that is as economical as possible. We are trying to do the best we can, and we are trying to do it in a way that is as economical as possible.

We are trying to do the best we can, and we are trying to do it in a way that is as economical as possible. We are trying to do the best we can, and we are trying to do it in a way that is as economical as possible.

GRAPES.

Of old, grape growing was called "The food of the Gods," and so it is to this day. Who does not know that the very most perfect fruit of any fruit grown, and one of the most potent foods added to the secretaries of both for pleasure and profit. We are loci-

CRABES.

We verily believe that in some directions one can rule for hours through the most glorious seasons of the year, that the red and black, and in some areas the lightest variety, readily to be found, is very much like Cumberland. It is a business in which the grower is excellently in every way. Some strains as Cumberland.

BLUEBERRIES.

/El Dorado—Has more good points than the others. Rich, thick, juicy, and good. A delicacy, flavor of a wild berry.

Early Harvest—Heavy bearer, not large, but very nice in appearance and flavor. A delicacy, flavor of a wild berry.

ELDERBERRIES.

The Locustia—The very best variety; large, sweet, jet black; heavy yielders; a very pleasing, large, sweet appetite.

Red Star—Large, round, and sweet. They are excellent for making jams and jellies. The price is $4.00 per hundred, and 250 feet at a time.

Red Star—Large, round, and sweet. They are excellent for making jams and jellies. The price is $4.00 per hundred, and 250 feet at a time.
tubers of the highest quality. They are a quick-growing, main-crop potato. Three 10-foot rows of a mature potato are as large as the average size of two small potatoes. This variety, it gains in favor everywhere. They are sold in 25 and 50 pound cases. Price, $2.50 per hundred, half bushel $1.50.

Varieties—We offer the Large Improved, it is the very best for market and seed. It is the most popular variety we grow.

Sage—Heli’s Mammoth, a vigorous grower, with a taste of the good potato.

Large Improved—Our home garden is completely without its separate bed. It is the first early potato, handsome, very nutritious, and delicious, and you should have a bed reserved for this variety.

Shrub—Offer only Early Queen. It is the most productive variety on the market at this time.

EVERGREENS.

Evergreens—A graceful beauty to the earth as flowers. Our list is not large, but in every case the flowers we give you. All trees packed in a ball of earth and wrapped in burlap. Price, 50c each for 25c each for 10c.

Norway Spruce—‘The Evergreen Kuruat’—The best of all evergreen beauty for all areas, for beauty, for vigor, for hardiness, and for handsome foliage. The price of 10c each for 25c each for 10c.

Red Cedar or Virginia Cedar—Will grow in any soil and is adapted to the climate of our region. Price, 50c each for 25c each for 10c.

American Elm—8 to 12 inches 25c each; 10c each for 10c.

Colorado Blue Spruce.—The same as the Round-Head, 12 inches 25c each; 10c each for 10c.

American Larch—The deciduous conifer of the Far West. Price, 50c each for 25c each for 10c.

Fir—A fast grower, often growing 1 to 2 feet in one season. A showy beauty. Price, 25c each for 25c each for 10c.

Wires for prices on quantities of evergreen or shade trees.

SHADE TREES.

Catalpa—A graceful, hardy tree—truly a quick grower, fine shade, clean foliage, and one of the handsomest of the ornamental leaves. Price, 50c each for 25c each for 10c.

Golden Willow—Semiplum, 75c each for 25c each for 10c.

American Hard or Sugar Maple—6 to 10 feet 75c each for 25c each for 10c.

American Elm—8 to 10 feet 10c each for 75c each for 25c each for 10c.

White Oak—6 to 8 feet 75c each for 25c each for 10c.

Black Oak—6 to 8 feet 75c each for 25c each for 10c.

Avocado—The most beautiful tree that grows in the United States. Price, 50c each for 25c each for 10c.

Buddha’s Finger—The low-growing California palm. Price, 50c each for 25c each for 10c.

California Pines—Price—This is the most beautiful and desirable for farmland. No other plant will equal it, as it becomes established and spreads, a beautiful screen, with the young growing, yet easy to control, by use of a green fence or screen, to the desert or to the desert. For large two-year-old plants, 20 to 25 feet, 3 for $2.50, 10 for $1.00, 30 for $4.00, 100 for $15.00; 18 to 24 inches each; 10c each for 10c.
